I. STUDENT INFORMATION

FULL NAME	Amirhossein Arshadi Kalameh	STUDENT ID NUMBER	40117363
FATHER'S NAME	Mahmoud	NATIONAL ID NUMBER	1274158206
DATE OF BIRTH	December 9, 2003	PLACE OF ISSUE	Isfahan, Iran
FACULTY	Faculty of Physics	DEPARTMENT	Department of Physics
FIELD OF STUDY	Physics	DEGREE SOUGHT	Bachelor of Science (B.Sc.)
PROGRAM TYPE	Full-Time, Day Program	ADMISSION TYPE	National Entrance Examination (Konkur)
ENROLLMENT DATE	September 2022 (Mehr 1401 SH)	ACADEMIC STANDING	Currently Enrolled — Excellent Standing

II. ACADEMIC PERFORMANCE SUMMARY

CUMULATIVE GPA 19.47 out of 20.00	US 4.0 EQUIVALENT 4.00 Grade: A (WES/ECE scale)	CLASS STANDING Top 1% of Physics cohort
---	---	---

Comparative Academic Statistics

Metric	Iranian Scale (0-20)	US Scale (4.0)	Descriptor
Student's Cumulative GPA	19.47	4.00	Excellent
Faculty of Physics Average	15.09	~3.45	Good
University-Wide Average	14.80	~3.40	Good
Physics Program Average	15.12	~3.45	Good

The student's cumulative GPA of 19.47 exceeds the faculty average by 4.38 points (on a 20-point scale), demonstrating exceptional academic performance well above the typical graduate of Isfahan University of Technology, one of Iran's most selective technical institutions.

Semester-by-Semester GPA Progression

Consistent upward trajectory; all semesters above 18.5/20 (A-range equivalent)

III. CREDITS BY COURSE CATEGORY

V. GRADING SCALE & CONVERSION GUIDE

Iranian Scale (0–20)	US Letter Grade	US 4.0 Scale	Descriptor
19.00 – 20.00	A+	4.00	Outstanding / Excellent
17.00 – 18.99	A	4.00	Excellent
15.00 – 16.99	B+	3.50	Very Good
14.00 – 14.99	B	3.00	Good
12.00 – 13.99	C+	2.50	Fair
10.00 – 11.99	C	2.00	Pass (Minimum)
Below 10.00	F	0.00	Fail

Legend of Grade Notations

- A** — Excellent — Numerical grade of 17.00 or higher on the 20-point scale.
- B+** — Very Good — Numerical grade between 15.00 and 16.99.
- P** — Pass — Credit awarded without a numerical grade (qabool / قبول).
- W** — Withdrawn — Course dropped with emergency withdrawal (hazf ezterari / حذف اضطراری). Does not affect GPA.
- IP** — In Progress — Course continues across multiple semesters (edameh projeh / ادامه پروژه), typical for thesis/project work.
- NR** — Not Reported — Final grade not yet announced by the instructor (elam nashodeh / اعلام نشده).

Credit System & Degree Requirements

- **Credit Hour Definition:** One credit (vahed / واحد) corresponds to one hour of lecture or two–three hours of laboratory work per week, over a 16-week semester.
- **Degree Requirement:** The B.Sc. in Physics requires a minimum of 140 credits distributed among General Education, Basic Sciences, Core Physics, Specialized Physics, and Elective categories.
- **Academic Calendar:** The Iranian academic year follows the Solar Hijri (SH) calendar. Semester 1 begins in late September (Mehr), and Semester 2 begins in late January (Bahman).
- **Language of Instruction:** Persian (Farsi), with selected courses and materials in English — particularly in specialized physics coursework.

VI. ABOUT THE INSTITUTION

Isfahan University of Technology (IUT) is a leading public research university in Iran, founded in 1974. It consistently ranks among the top three technical universities in the country and is recognized internationally for excellence in engineering, physical sciences, and applied research. Admission is highly competitive, administered through Iran's nationwide entrance examination (Konkur), with acceptance rates for the Faculty of Physics typically in the top 1–2% of applicants nationally.

The Faculty of Physics at IUT offers comprehensive programs in theoretical, experimental, and computational physics, with research specializations in condensed matter, statistical mechanics, quantum optics, and elementary particle physics. Faculty members regularly publish in top-tier international journals.

VII. CERTIFICATION

This document is an accurate English translation of the official Persian-language academic transcript issued by the Behestan Comprehensive University Management System of Isfahan University of Technology. The original Persian transcript, generated on 1405/02/04 (April 24, 2026) under Report Number 100, remains the definitive and legally authoritative record.
